## INSTRUCTIONS

## READ CAREFULLY AND COMPLY FULLY

For the purpose of this determination attach hereto a neat, accurate plat, map or sketch of this lease, section, block or lot locating thereon the proposed site for this location. Plat shall be drawn to a scale which will permit the facile observation of all pertinent data. Show distances of the proposed well from the two nearest lease and section lines, and from the nearest wells on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well, and the names and addresses of all adjoining lease or property owners.

In event plat is filed for the purpose of designating the drilling and producing unit, or proration unit, on which the proposed well is to be drilled, the boundaries of such unit shall be shown, also the boundaries of all other such units attributed to other wells on the same lease completed in or drilling to the same reservoir. The acreage contained within each unit shall also be shown.

Do not confuse survey lines with lease lines. The sketch or plat should show your entire lease if possible. If it is not practical to show the entire lease and the plat shows only a section, block or lot out of your lease, you should clearly show that same is only a part of the lease.

Designate scale to which plat or sketch is drawn. Also designate northerly direction on the sketch or plat.

Dear Mr. Owen:

We are very happy that you will be drilling a well in Arizona.

We would appreciate it if you would forward to us a plat of your location together with your notice of intention to drill and a check for \$25.00 permit fee. We will then approve your location and you can proceed forthwith.

On your notice of intention to drill form on the reverse side there is a casing program to be filled out. We will allow you to exercise your judgment in this regard, but we should like a statement in the casing program to the effect that you will protect all fresh water strata.

In conclusion, we are most pleased that you are coming to Arizona and hope that your operations will be a tremendous success.

Yours very truly,

D. A. Jerome  
Executive Secretary
